

Kaukapakapa Footpath Connections

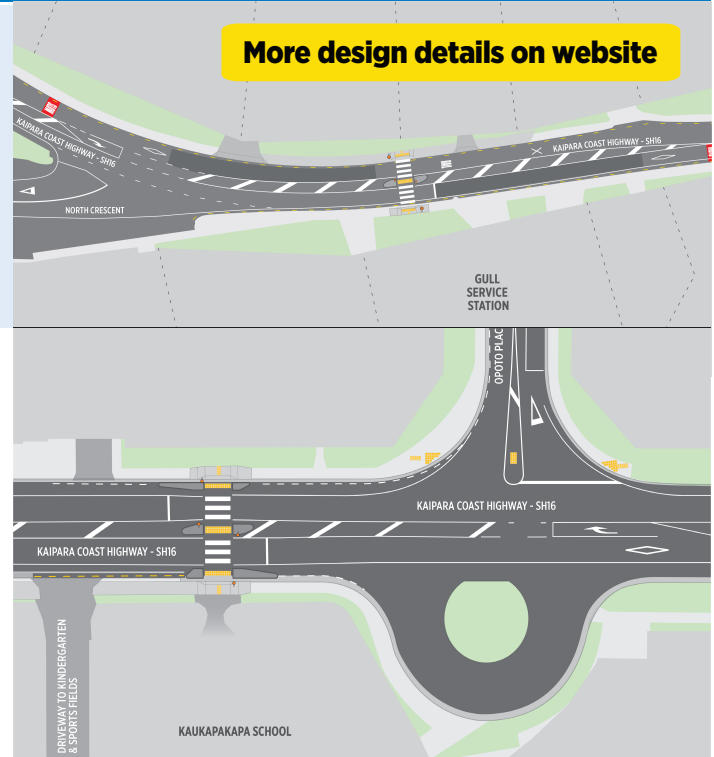

Safety Improvements

We're improving some footpaths in Kaukapakapa along SH16 including a new zebra crossing.

The work will take approx. 6 months

More design details on website

Benefits to your area will include:

Footpaths make it safer for the community by separating motorists and traffic from people on foot.

Improved traffic flow providing better connections in and out of Kaukapakapa.

Safer footpaths in your area with a new crossing and more walking options in town.

Safe to enjoy the outdoors for everyone's health and wellbeing.

Connect people to the shops and amenities nearby, to enjoy your neighbourhood safely.

Kaukapakapa Footpath Connections

Safety Improvements

Plan Ahead

The Footpath Connection project includes:

- Redesigned and improved footpaths, with areas widened and new driveway entries within the busy Kaukapakapa township.
- Improved safety and sightlines for people on foot, while crossing the road and connecting you to local amenities from side roads and SH16.
- We listened and removed raised crossings from the project, using zebra crossings instead.
- Realigning carparks to improve drivers visibility and safety while reversing onto SH16.
- Plan for future growth in population to the area.

We expect to start road works in June for 6 months.

We will do our best to keep the noise down.

Please plan ahead and follow any traffic management signs
